Hi Paula,

The EPA brochure "Protect Your Family from lead in your Home" can be used in part or whole for adverse health effects of lead and how you can be exposed to lead. It focuses on all sources, not just soil.

http://www2.epa.gov/sites/production/files/2014-02/documents/lead_in_your_home_brochure_land_b_w_508_easy_print_0.pdf

Nikia is looking for some basic stuff used up in Montana. I'll send when it comes.

Susan

Subject: Lead Fact Sheets

Hey Toxs – The Upper Animas team is looking for a good fact sheet on lead for our introduction meeting to the Silverton town council. We have the one from ASTDR – CAS# 7439-92-1 and also an EPA lead fact sheet from 2001. Both have a lot of words – if you catch my drift. Do either of you know of any other fact sheets on lead that might be suitable. Since this is an intro meeting, we're not ready to discuss cleanup #s – a bit premature.

If you know of something, can you copy Cynthia Peterson on this. Thanks.
